

ULTRA CLEAN AND ULTRA SAFE—FOR ULTRA SATISFIED EMPLOYEES.

AcryliCon Décor does more than keep food-prep areas ultra clean and ultrahygienic. It keeps your employees safe in areas that are prone to slip-and-fall accidents. You see each layer of Décor is designed to chemically bond together, so there's no chance of delamination between layers, or from concrete.

- Ultrahygienic
- Innovative monolithic system
- Excellent slip resistance values
- Unparalleled longevity and clean-ability
- Completely pore-free surface
- Ultra-high compressive strength—no plasticizer loss
- 30-year life expectancy
